

PCI Geomatics Advances Efforts in Brazil Market

Richmond Hill, Ontario – June 14, 2010: PCI Geomatics has returned from a business development mission to Brazil, expanding and promoting its geo-imaging software and solutions offerings to this marketplace.

In addition to key meetings with stakeholders and customers, PCI Geomatics co-hosted two seminars with its reseller partner Threetek, one in Rio de Janeiro and a second with the Consulate General of Canada in Sao Paulo, Brazil.

“PCI Geomatics regards the market in Brazil with high strategic importance to the growth of the company,” said Trevor Taylor, Director of Business Development at PCI Geomatics. “Our participation and presence in Brazil will help us to further understand local requirements, particularly with applications derived from Radar imagery and future trends.”

“Brazil is a region where PCI Geomatics has been a technology reference for a long time. The long term partnership with PCI Geomatics has proven to be solid milestone in serving and supporting the needs of new and existing Brazilian PCI Geomatics customers,” said João Vassallo, President of Threetek.

PCI Geomatics’ latest offerings include: Geolmaging Tools, a suite of tools for processing and analyzing imagery in the GIS; Geolmaging Accelerator, a high performance system with accelerated GPU based performance; and GeoConference, a real-time interactive geospatial conferencing system.
