

PCI Geomatics Announces PT Barrata as New Distributor in Indonesia

Richmond Hill, Ontario – August 17, 2010: PCI Geomatics, a world leading developer of geo-imaging software and systems is pleased to announce that PT Barrata is now an official distributor of PCI products for customers in Indonesia.

Located in Bandung, Indonesia, PT Barrata's staff is focused on remote sensing and GIS related business. PT Barrata will promote PCI Geomatics technologies including Geomatica® and Geolmaging Tools software to customers throughout the country.

"Barrata has a background of working with Geomatica, and we feel that it is more powerful and user friendly than any other system available," said Mr. Gelar Nugraha, President, PT Barrata. "We believe this makes it an ideal product to sell in Indonesia."

"We look forward to having PT Barrata as our distributor in Indonesia for they will bring their experience to PCI users in this part of the world," said Anne Skinner, Global Channel Manager at PCI Geomatics.

About PCI Geomatics

PCI Geomatics is a world leading developer of software and systems for geo-imaging solutions. Since 1982, we have specialized in remote sensing, digital photogrammetry, spatial analysis, cartographic production, automated production systems, image management and on demand mapping solutions. PCI Geomatics' advanced software systems address a wide variety of industry applications including the environment, agriculture, security and intelligence, aerospace & defense, and satellite receiving stations. We have the expertise and know-how to turn images into useful information.
