Geomatica 2012 Service Pack 1 Released

RICHMOND HILL, Ontario, Canada—December 13, 2011: PCI Geomatics, a world leading developer of geo-imaging software and systems, announces it has released its Geomatica 2012 Service Pack 1.

This release contains maintenance fixes and includes all updates delivered since Geomatica 2012. The update is available for both Windows and Linux based operating systems.

It is recommended that customers using Geomatica 2012 download and install this service pack at their earliest convenience to ensure the highest-quality experience when working with the software. The service pack can be accessed by visiting the updates page at www.pcigeomatics.com/updates.

Customers who have any questions or run into issues with the installation should contact PCI's Support team at support@pcigeomatics.com, or visit the support site at www.pcigeomatics.com/support.

About PCI Geomatics

PCI Geomatics is a world leading developer of software and systems to process aerial and satellite imagery. The company provides integrated Esri imagery workflows, standalone image processing capability, and large volume processing throughput; giving customers the ability to produce high quality ortho-mosaic products and derived information for any project.
